## Professional Experience

### Integration Innovation, Inc. (i3) — *Jr. Instructional Systems Designer* April 2024 - Present

Developed and delivered learning high-quality, user-centered instructional materials, ensuring clarity, accessibility, and adherence to client style guides.

Collaborated with content creation, lead curriculum critique sessions, incorporate feedback from clients and subject matter experts, and identify interactive content opportunities through analyses.

Provided instructional design expertise and developed training materials like lesson plans, manuals, and guides using specialized software and tools; analyze evaluation data to refine course content.

Collaborated with stakeholders for content strategy development to align learning materials with student needs, focusing on user-friendly navigation for both students and instructors.

Utilized tools like Adobe Captivate, Articulate Storyline, Simple Engine and Unity for course design, whilst maintaining an active U.S. DoD security clearance to ensure compliance with accessibility standards.

### Publix Pharmacy — *Registered Pharmacy Technician*

Nov 2022 - Aug 2023

Delivered high-quality patient care by preparing and distributing medications, assembling intravenous solutions, and addressing inquiries from patients and healthcare providers.

Managed pharmacy inventory by verifying orders, removing outdated drugs, and ensuring adherence to infection-control policies and protocols.

Prepared prescriptions, maintained medication availability, and analyzed evaluation data to improve processes while adhering to safety standards.

### Canvas, Inc. — *Instructional Designer Intern*

May 2021 - Aug 2021

Created comprehensive training materials, including lesson plans, student manuals, tests, and interactive multimedia content using specialized software.

Assisted in designing and implementing new courses, analyzing evaluation data to refine content, and providing recommendations to enhance user learning.

Evaluated existing tools from an instructional design perspective to improve structure and content for better learning outcomes.

## University of Alabama — Huntsville

### Department of Humanities — *UX/UI Laboratory Assistant*

Sep 2022 - Dec 2022

Conducted user research and usability testing, collecting, and analyzing qualitative and quantitative data to develop actionable insights.

Developed user personas and journey maps based on research findings, conducting competitive analysis to identify industry trends and potential areas of improvement for products.

### Department of Science — *Graphic Designer*

Oct 2021 - Sep 2022

Developed and implemented effective marketing campaigns, utilizing verbal and visual communication.

Managed social media accounts and monitored metrics to inform future marketing initiatives, as well as produced well-written and accurate content for publications.

### Department of Enhanced Teaching and Learning — *Student Analyst*

Feb 2021 - Aug 2021

Developed and edited a variety of public resources, including instructional materials, video tutorials, visual designs, graphic designs, iconography, and infographics.

Created and edited captions for instructor lecture videos, collaborated on webpage updates, and assisted in acquiring new teaching software, ensuring seamless communication with team members.

Maintained strong communication and collaboration skills within a team environment, while staying updated on emerging instructional technologies and evolving design standards.
